March Tip: Nosebleeds

You know that you should see a doctor if your nosebleed was caused by an injury, such as a punch. But what if it just starts bleeding on its own? Follow these steps:

- Don't lie down. Sit up or stand.
- Use tissues or a damp washcloth to catch the blood.
- Tip your head forward (don't lean your head back; this can make blood run down your throat).
- Pinch the soft part of your nose together (just below the bony part of your nose) and breathe through your mouth. Do this for 10 minutes. Make sure you hold the pressure for 10 minutes without stopping.
- Do not pick, rub, or blow your nose – this can cause your nose to bleed more.
- Ask a friend or parent to keep an eye on the time so that you keep pinching your nose for the full 10 minutes. If your nosebleed doesn't stop, pinch it for another 10 minutes. If it still hasn't stopped, your mom, dad, or another adult should speak with a doctor.

1. Pour the milk into an ice cube tray and freeze until solid.
 2. Pop the "milk cubes" out of the tray and put them into the blender. Then put the peaches and sugar into the blender.
 3. Put the lid on the blender and blend on high speed until everything is all mixed together and very smooth. Pour your Perfect Peachy Freeze into serving dishes and serve right away.
